

CHICAGO DEPARTMENT OF
PLANNING & DEVELOPMENT

SBIF: Jobs Created/Retained Survey

The City of Chicago aims to use TIF dollars to promote economic development. For many TIF projects, job creation – including temporary construction jobs and permanent commercial and industrial jobs – is a critical measure of success. The 2011 TIF Reform Panel recommends using job creation and retention as a metric to measure the impact of TIF spending on economic development. This information helps ensure that TIF dollars generate relevant returns on investment for taxpayers. The following information is **mandatory**, but will not affect the acceptance of your grant project.

- The business had _____ employees before the project.
- The project helped retain an estimated _____ jobs for the business.
- The project will help/helped create an estimated _____ jobs for the business.
- The project created an estimated _____ temporary construction jobs.
